

# Mathematics Department Flowchart

- Three credits of mathematics are needed to graduate. Algebra taken in 8th grade counts as an elective credit, NOT as a math credit towards graduation.
- Algebra is the foundational course for all future high school math credits. Students taking Algebra in 8th grade need to **maintain a minimum of a B average in their Algebra course** in order to take Geometry their freshman year.
- It is recommended that students planning on attending a four year college or university take four years of math. University of Wisconsin schools require a math placement test before scheduling college classes. Your math progression should be based on your goals for life after high school.
- Students have the opportunity to earn Laude Honor Points with the following courses:

Course	Laude Honor Points
Quantitative Reasoning	1
College Technical Math IA	1
Pre-Calculus	2
AP Calculus AB	2
AP Calculus BC	2
AP Statistics	2
