

**SCHOOL SAFETY RESPONSE PLAN FOR
LIFE-THREATENING SITUATION**

School District of New London staff will utilize code signals through its intercom systems to staff members for the purpose of relating circumstances which have the potential to become life-threatening. The following codes have been established:

1. Medical Emergency.
2. Emergency Lockdown.
3. Hazardous Spill Emergency.

Medical Emergency signals a life-threatening medical situation is occurring within the building (i.e., cessation of breathing, uncontrolled bleeding, heart attack, unconsciousness, severe shock, etc.)

Emergency Lockdown is a non-medical emergency and relates to an extreme circumstance which has the potential of becoming life-threatening for one or more individuals within the building (i.e., armed individual or individuals within the building, etc.)

Hazardous Spill Emergency signals a hazardous waste spill has occurred which has the potential of becoming life-threatening for individuals in or around school buildings.
